Aboriginal & Torres Strait Islander Services Directory

Aboriginal & Torres Strait Islander Services Directory

Introduction

This directory has been compiled for use by Aboriginal Patient Pathways Officers and other Health SA staff as needed. It is an internal document that contains information on a range of organisations, agencies and services and programs that are provided specifically to the Indigenous community.

The information contained in this directory has been supplied by organisations themselves, internet and council resources, and also taken from a similar document prepared for internal use by Housing SA. Whilst every care has been taken in ensuring that all information is correct when compiling the directory, there will be some unavoidable omissions and errors. It is considered a living document and as such it is expected that content will need to be updated periodically.

Please submit corrections and additions to susanm.williams@health.sa.gov.au
