family & friends rights and responsibilities

Information for the people that care for you, including friends, family, partners, support persons and significant others.

who are carers?

Carers are people who usually have an unpaid support role for someone living with health or mental health difficulty. They may be a family member, friend or have another close relationship with the person. Carers play an important role in supporting people in their health journeys.

self-care & support

It is important that as you care for someone, you also look at what you need to be able to remain mentally and physically fit and healthy. It is not selfish to focus on your own needs and desires when you are a carer - it's an important part of the job.

Carers SA is an organisation that specialises in carer support and can provide more information and resources about self-care, advocacy and carer rights. To contact Carers SA, telephone 1800 242 636 or visit www.carers-sa.asn.au
